

BRILL *Over three centuries of scholarly publishing*

Higher Education: Linking Research, Policy and Practice

Series Editors: Bruno Broucker, Ton Kallenberg, and Rosalind M.O. Pritchard

The series *Higher Education. Linking Research, Policy and Practice* investigates and discusses a diverse range of topical themes in the broad field of Higher Education, such as: trends in strategic management and governance, new insights in (digital) teaching and learning methods, sustainable HR policy, research excellence, third mission policy, or renewed approaches to transnational cooperation and internationalisation. The books in this series form a unique compilation of selected papers presented at the yearly EAIR-forum, which is an international association for higher education researchers, practitioners, students, managers and policy-makers. Herewith the books not only bring together a range of well-selected topical papers, but also a diversity of perspectives: scientific investigations of reputed scholars, critical evidence-based papers of third space professionals, and/or policymakers' perspectives on the daily practice and management of higher education institutions and systems. In line with the history of EAIR, the series aims to cross boundaries between types of activities and seeks to cater for a mix of contributors.

Authors are cordially invited to submit proposals and/or full manuscripts by e-mail to Acquisitions Editor [Evelien van der Veer](#) or Series Editor-in-Chief [Bruno Broucker](#).
